

EUROPA 2 Examples

A simple E2 example is described on the [Quick Start](#) page. Here are some more advanced examples that can serve as starting points for your own model, or just to learn more about what EUROPA can do in different domains:

- Constraint Programming:
 - ◆ NQueens
- Scheduling:
 - ◆ Resource Constrained Project Scheduling Problem (RCPSP)
- Planning:
 - ◆ Blocks World
 - ◆ [Mars Rover](#)
